

Section 7: VMock Customised Resume

VMock Resume Optimiser Submission (10%):

Objective:

The objective is to create a customised resume using VMock to enhance your chances of securing an internship. This assignment leverages the Resume Optimiser tool to guide you in crafting a professional and recruiter-ready resume tailored to match the requirements outlined in a selected job advertisement.

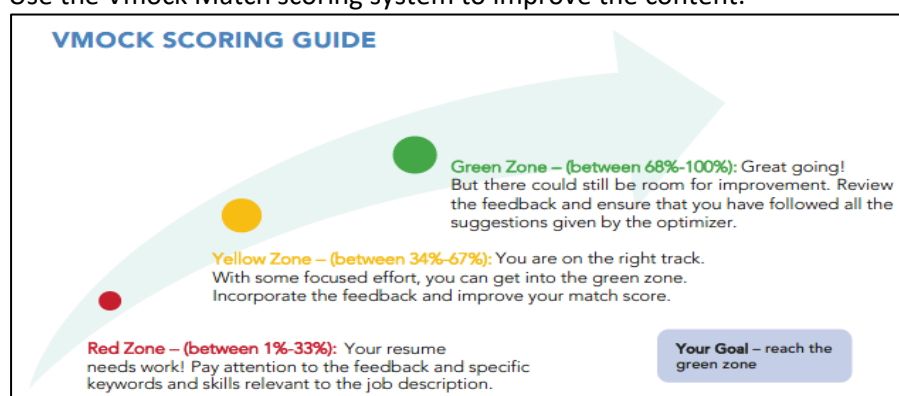

What does the VMock Platform Offer?

- The VMock platform leverages AI, machine learning, and analytics to assist you in customising your resumes. It provides personalised feedback for improvement and offers a benchmark-based score to help you enhance your resumes effectively.
- Ensure you do not miss the delicate details and make a great first impression with comprehensive presentation checks (based on your school template/requirements).
- Highlight the right skill set with an intelligent assessment of core competencies (based on job functions reflected) in academics, extracurriculars, achievements, and other experiences written on your resume.
- Create a more powerful impact with actionable and targeted feedback for every bullet that helps bring out the scope of your work/experience.
- Watch this Demo to better understand the requirements - <https://www.vmock.com/video>

What is VMock Resume Optimiser?

- Enable you to create a recruiter-ready resume for a job description and obtain an accurate Match Score of your resume against the job description.
- Equip you with functional and general keywords and their count to improve the effectiveness of your resume.
- Provide bullet-level recommendations and targeted sample phrases in accordance with the job description.
- Run a soft skill gap analysis and identify the transferable skills that showcase your readiness for the specific job.

- Help you improve your resume by suggesting ATS keywords and sample bullets for each soft skill.
- Obtain content and presentation check feedback based on ATS requirements.
- Use the VMock Match scoring system to improve the content.

Instructions for the VMock Customised Resume Assignment:

1. You are to source for an internship position you wish to apply for and craft a customised resume for your internship application.
 - You may research a suitable internship position through various sources, such as online job portals.
 - Craft a customised resume for your internship application. A customised resume should highlight your relevant skills, experience, and education in line with those aspects specified in the internship job advertisement by the prospective employer.
2. To complete the assignment, refer to Steps 1 – 6 below to guide you through:
 - (A) Using VMock Platform to Craft Your Resume
 - (B) Using VMock Platform to Customize Your Resume to apply for an internship application.

A) Using VMock Platform to Craft Your Resume:

Step 1 – Log onto VMock portal and click on Resume on top right-hand bar

Option 1 (use Word doc resume or use existing resume)

Convert to pdf and upload to VMock Smart Resume

If you prefer to craft your resume using Word, you can start by using the sample resume template to craft your resume according to the job scope, job requirements, qualifications, etc., shown in the Job Ad.

Steps when using an existing resume

- Upload an existing resume in PDF format to get started.
- VMock SMART Editor will convert your resume into a ready-made template.
- Follow the step-by-step SMART Editor guidance across the product.
- You can download your resume in PDF and Docx format.
- Once you have made all the changes, you can re-score your resume to get an updated score and detailed feedback.

Option 2 (use ready-made template)

Create a new resume using VMock Smart Editor template

If you don't have a resume yet, you can create a new resume using the ready-made template by clicking on the 'Create New' button on the student dashboard.

Steps to using SMART Editor

- Click on 'Resume' on the top navigation panel of the user dashboard. Select SMART Editor from the dashboard.
- If you don't have a resume yet, you can add your information using our template, which will pop up right when you open SMART Editor.
- Start adding content and follow the step-by-step guidance wherein the system will provide real-time feedback. Once you have added sufficient content, you can score your resume and see detailed feedback.

FEEDBACK MODULE

Data Science - Scoring & Benchmarking

Your resume is scored on the basis of 3 core modules using 100+ parameters that are fine-tuned and normalized across your community.

How it works?

Steps to follow

- Upload existing resume or Create new from scratch
- Get instant score and check detailed feedback
- Edit and Improve your resume in SMART editor

Community Insights

Resumes are observed to secure, on average, a score of 74 on the VMock platform

Improve Your Resume

Upload existing Resume to get instant feedback

10 uploads left

OR

Create New Resume

Select template and create new resume from scratch

Analytical skill is the highest reflected skill across thousands of high-scoring resumes.

More than 70% of high-scoring resumes show scope of responsibilities with quantified impact.

An average high-scoring resume has 15 bullets for the Experience

More than 70% talk about hobbies, a team sport & places visited.

Step 2 – Get Detailed Feedback

3 areas: Impact, Presentation & Competencies

Improve resume to receive at least an Amber score

- VMock will give your resume a score out of 100, show where you fall on a bell curve and give a breakdown for the grading of each of the three main sections – Impact, Presentation and Competencies. Get more information on each section by clicking on the blue button [View Detailed Feedback].
- Using the Detailed Feedback, you can further improve your resume to receive at least an **Amber** score if you have not used up the 5 attempts.
- You can move on to customise your resume using the VMock Resume Optimiser.

B) Using VMock Platform to Customize Your Resume to apply for an internship application:

Step 3 – Use Optimiser to customise your resume to job advertisement

Use the Resume Optimiser to help you create a recruiter-ready resume targeted towards a specific job description or your desired career track.

Steps when using VMock Resume Optimiser

- Click on Resume Optimisation from the right navigation menu under 'My Activities'.
- Cut and paste a job description, responsibilities and requirements, and select a resume for optimisation.
- Get a match score and feedback summary on keywords, skills, requirements, and ATS formatting.
- Edit your resume based on optimisation feedback and recommendations with SMART Editor.
- After making changes, re-evaluate your resume to get an updated optimisation Match score.
- The feedback provided by VMock is colour-coded, i.e., Green (68% - 100%), Amber (34% - 67%), or Red (1% - 33%), along with the corresponding numerical score.
- VMock system will capture your best score as your final score for this assignment.
- (Note: you will see 20 scans in the portal for an academic year).
- Download your optimised resume in a PDF or Word format.

Step 6 Career Fit Score

On the student dashboard, scroll down to view your Match score under Career Fit.

The screenshot shows the VMock Student Dashboard. At the top, there's a navigation bar with links: Home, Resume, Career Fit, Aspirer, Elevator Pitch, and Network Feedback. The main content area is titled 'Career Fit' and has two tabs: 'Viewed Previously' and 'Recommended'. Under 'Viewed Previously', there's a card for 'Functional Consultant' with a 39% match score. Below this card, there's a 'Job Description' section and an 'ATS Keywords Summary' section. The 'ATS Keywords Summary' section lists various keywords: technical implementation, organizational development, web development, business analysis, data analysis, competitor analysis, human resources, graphic design, business processes, project management, business value, consulting, market research, technology, ground intelligence, and training. On the right side of the dashboard, there's a sidebar with 'Linkedin Best Practices' and a 'Help' button.

3. Marks awarded for VMock Customised Resume Assignment is based on the Match Score achieved for your customised resume.

- After completing the above steps for the Customized Resume assignment, please check under “Career Fit” tab for your Match Score achieved.
- Check the table below for the corresponding marks to be awarded for the Match Score achieved.

Marks awarded	VMock Resume Optimiser Match Score Achieved
10 marks	68% or higher
8 marks	60 - 67%
5 marks	50 - 59%
3 marks	34 - 49%
Zero	33% or below
Zero	No attempt

Note:

- VMock Customised Resume Assignment is to be completed and submitted via the VMock Platform.
- It is best done in Adobe software. If you draft your resume in MS Word and format it into PDF, ensure no formatting issues which might affect the grading.
- Refer to Appendix A for a resume sample and Appendix B & C for VMock’s how-to guide.

SUBMISSION DEADLINE: Week 7, 26 September 2024 (Thu), 23:59hr.

ENQUIRIES

Please get in touch with your instructor and copy MLCPS-ML0004@ntu.edu.sg if you have any queries or encounter difficulties in your submission.
