Using Design Thinking Principles in Designing Your Life

Adapted from Design Thinking process (Stanford Life Design Lab)

By the end of this tutorial, you will

- Generate ideas for different career paths
- Learn how to create a prototype of your future career using a career roadmap & informational interviews

Divergent Thinking – How Might I?

Creates Schemas

Let's start thinking about Designing Your Life.

What are the Possibilities for your future career?

Rules of Brainstorming

1. **Defer Judgment:** Suspend criticism and evaluation of ideas during the brainstorming session.
2. **Encourage Wild Ideas:** Embrace creativity and unconventional thinking.
3. **Quantity Over Quality:** Focus on generating a large quantity of ideas without concern for perfection.
4. **Build on Others' Ideas:** Collaborate and combine ideas to spark further creativity.

Designing Your Life: Apply Divergent Thinking – Ideate 3 Radically Different Lives – See the Possibilities!

Life 1: The life you are living or currently developing today (Marketing Specialist)

Life 2: The life you might pursue if Life 1 was no longer an option (Children's Book Author)

Life 3: The wild idea: your basic needs are assured to be met, no constraints (Entrepreneur)

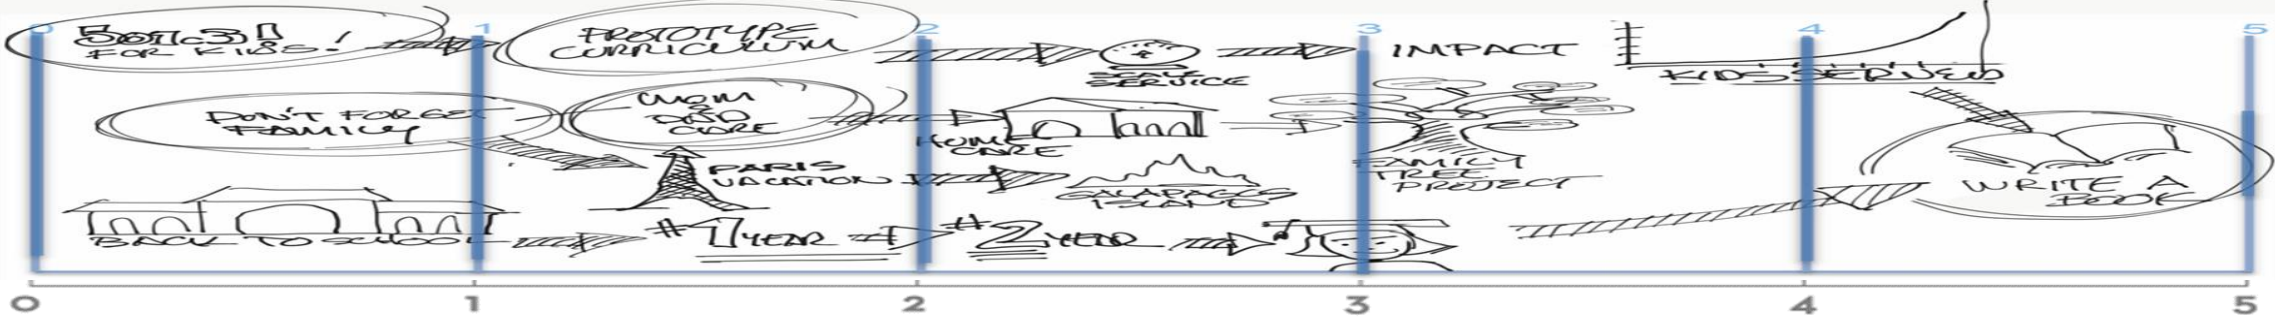

Using a 5-year planning template (Tutorial Materials folder – Main Course Site), create a visual/graphical timeline showing work and life events you hope to experience on each life timeline.

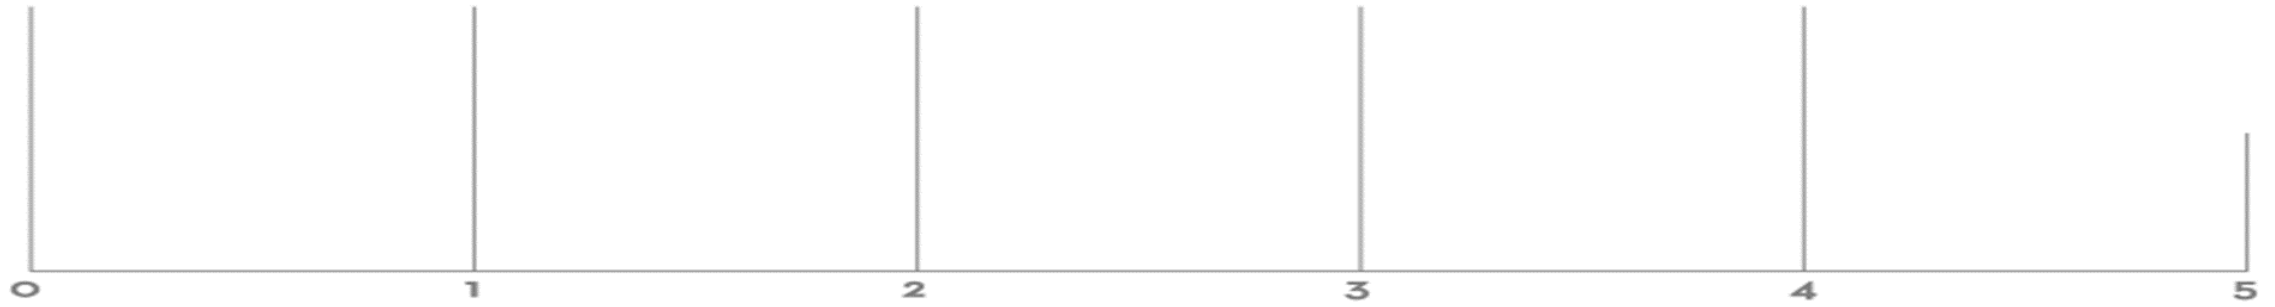

TITLE: Life 1: How Might I Become a Marketing Specialist in an MNC?

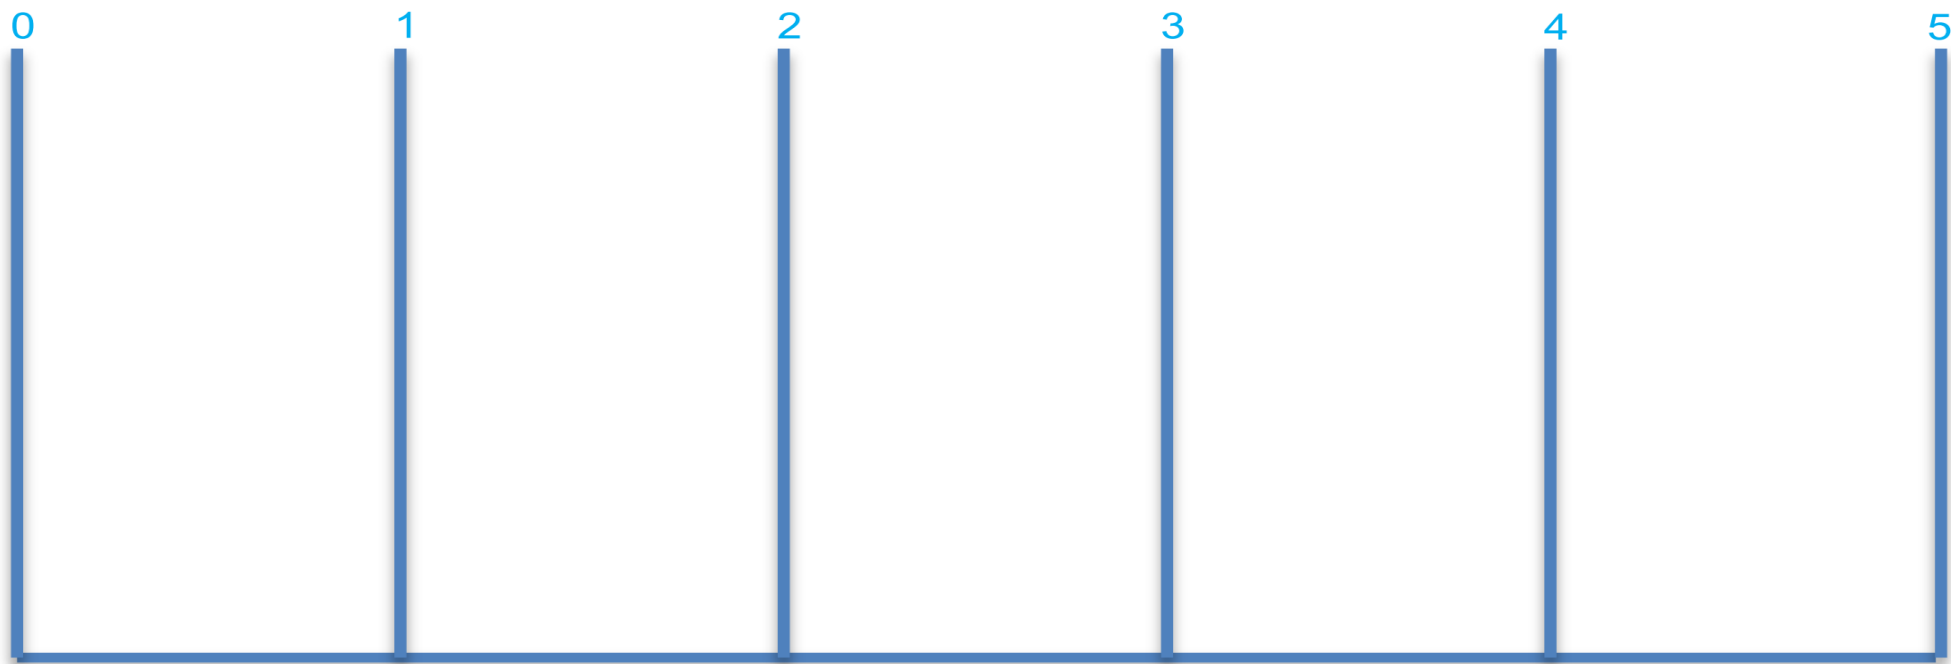

TITLE: Life 2: How Might I Become Children’s Book Author?

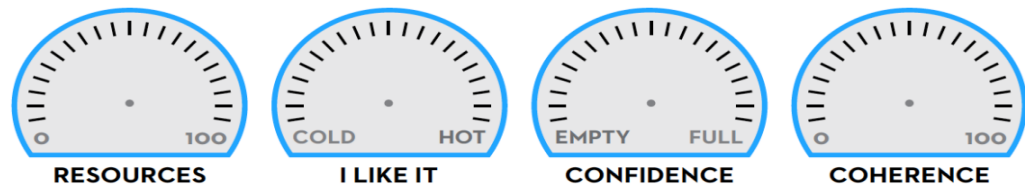

TITLE: Life 3: How Might I Become Social Media Entrepreneur?

Using a 5-year planning template (Tutorial Materials folder – Main Course Site), create a visual/graphical timeline showing work and life events you hope to experience on each life timeline.

Alternative Path #__

6 word title: _____
Questions this path raises: _____

TIMELINES

- Major Milestones
- Professional & personal (bucket list)
- At least one per year

3-6 WORD DESCRIPTIVE TITLE

DASHBOARD:

RESOURCES

I LIKE IT

CONFIDENCE

COHERENCE

Questions this path raises:

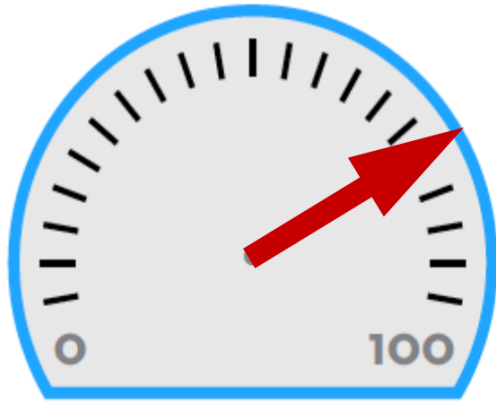

QUESTIONS:

What questions does this path raise?

life design lab

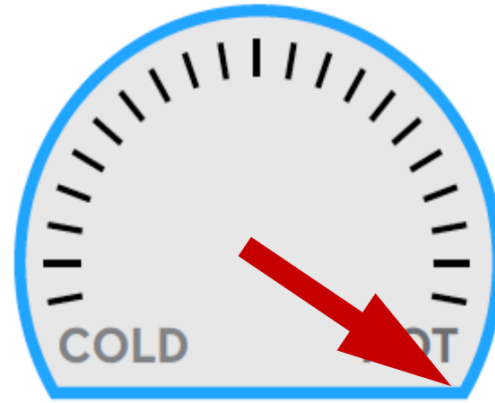

THE DASHBOARD

RESOURCES

GOT STUFF?

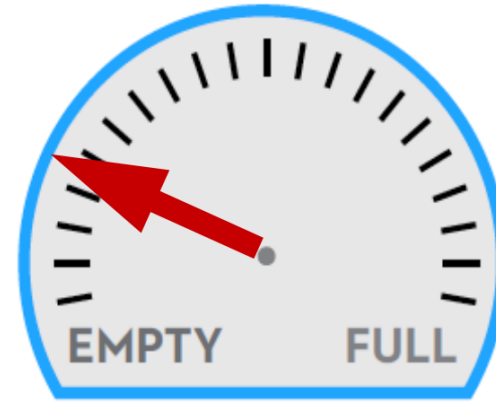

- \$\$
- People
- Competencies
- Tech / Materials

I LIKE IT

LIKE IT?

- Feels great!
- Pretty good
- Seems OK
- Yikes !

CONFIDENCE

FEEL IT WILL WORK?

- YES!
- Probably so
- Maybe
- Doubtful

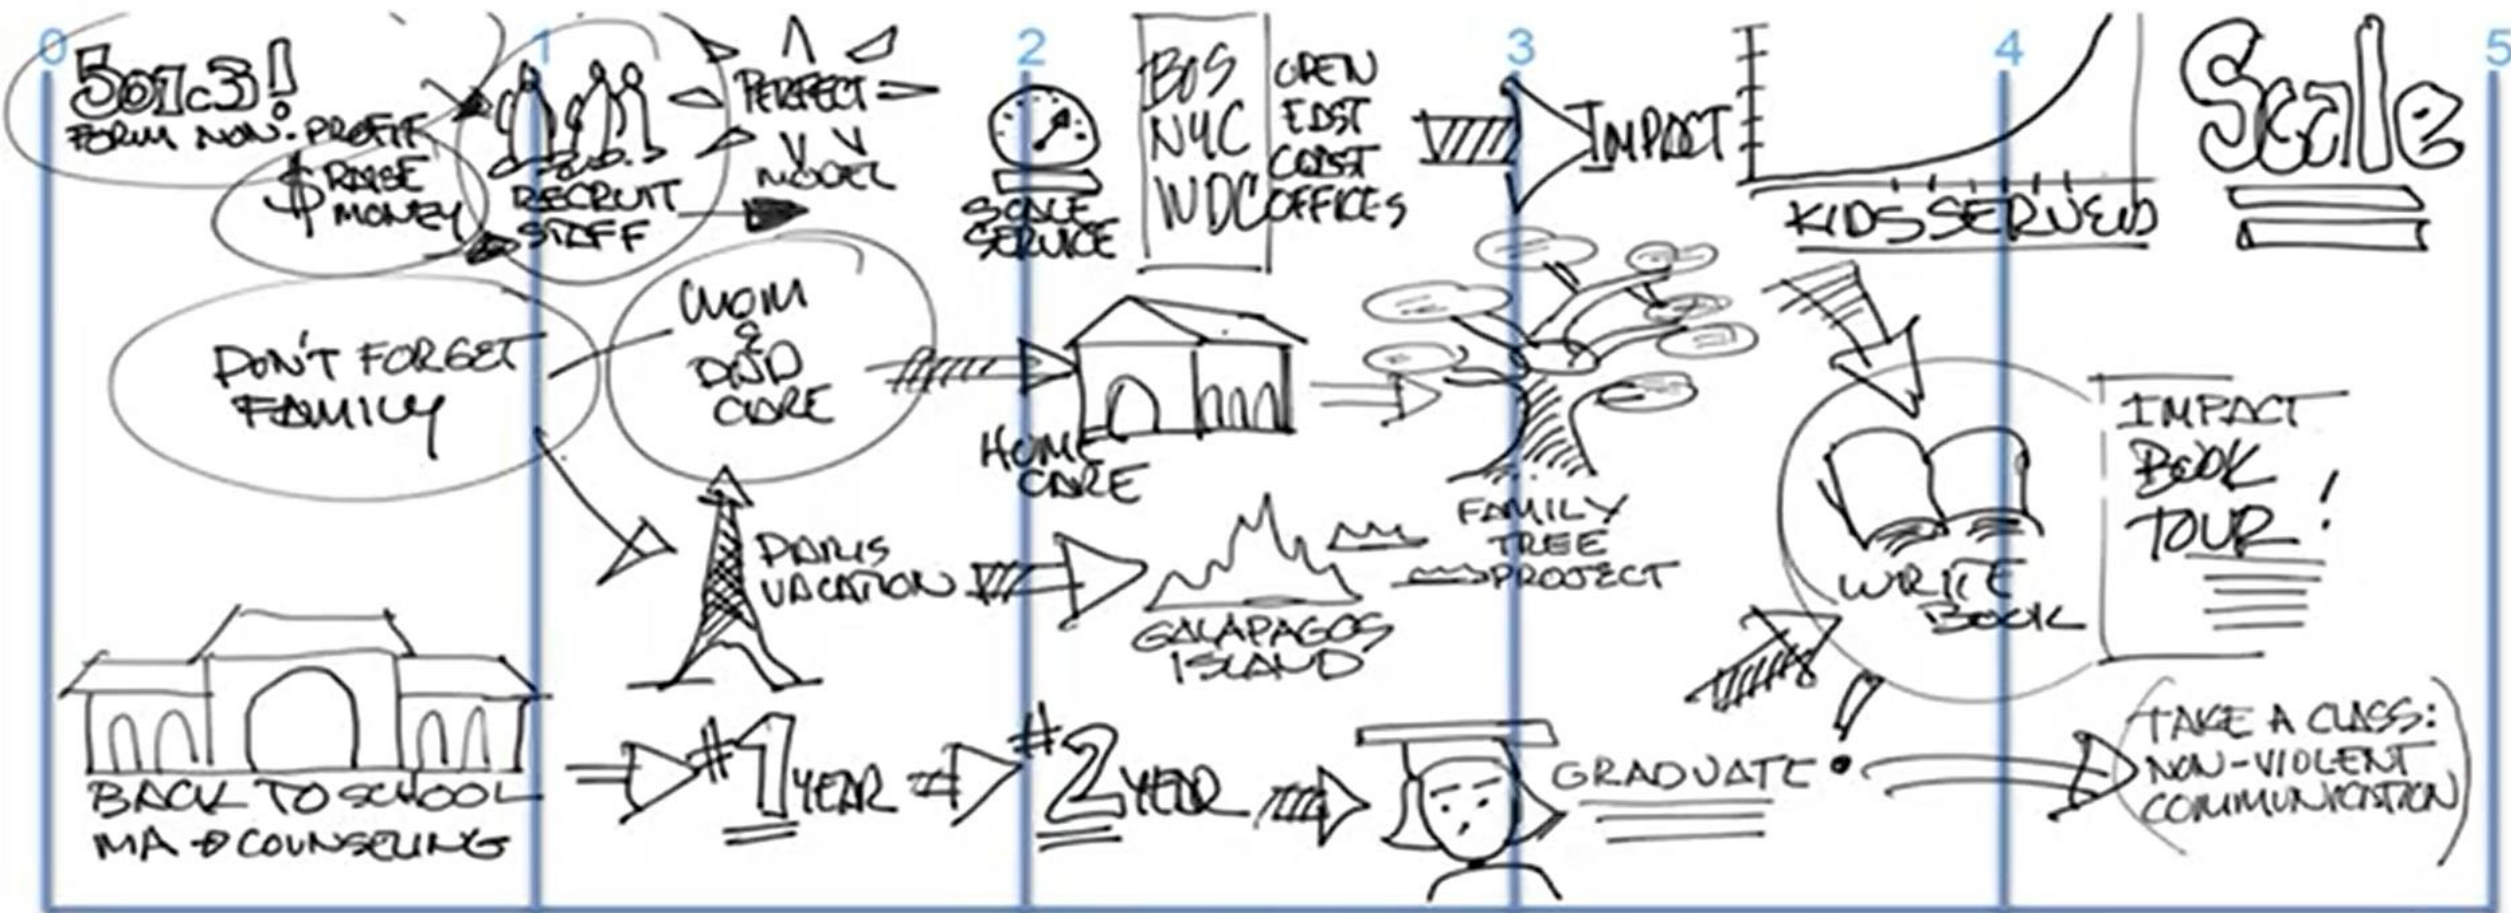

COHERENCE

A REAL YOU?

- Authentic
- Fits you
- Not just “should”
- Your voice
- Coherent

Alternative Plan # 2

RESOURCES

I LIKE IT

CONFIDENCE

COHERENCE

6 word title:

USING WHAT I KNOW -
HELPING KIDS!

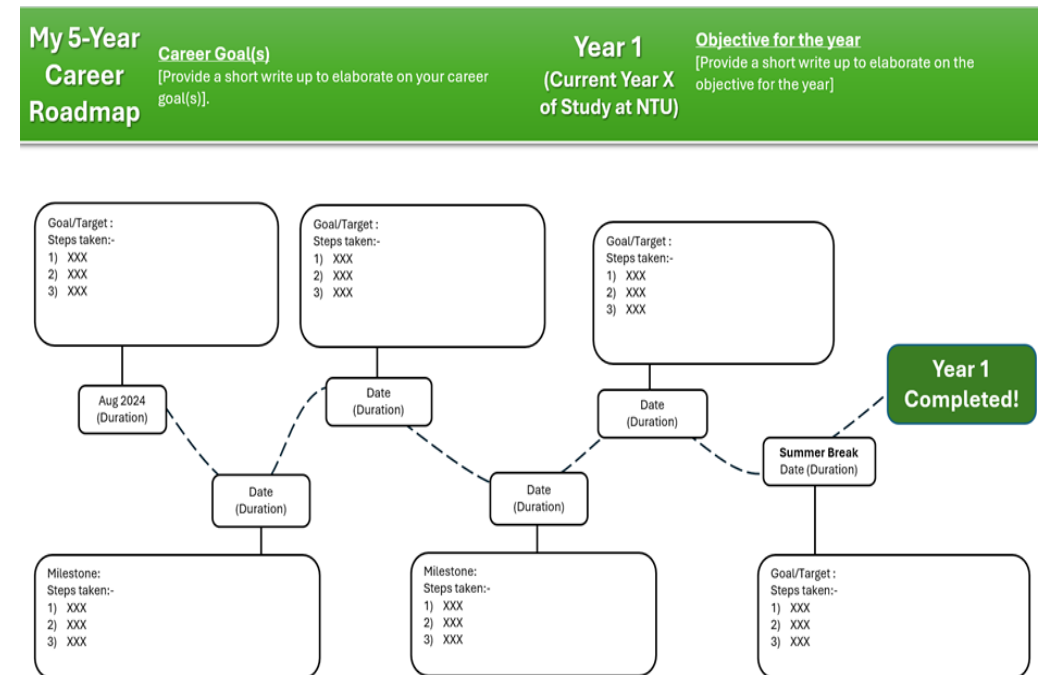

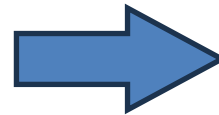

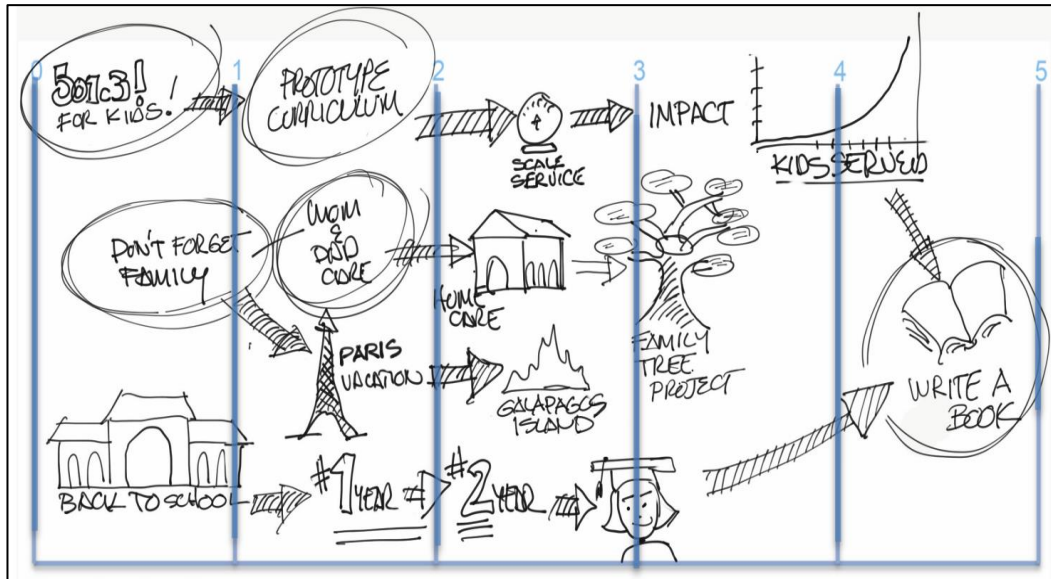

Source:

https://static1.squarespace.com/static/5d55f6964e09a5000191b26/t/62767a565295251e0966fb9d/1651931735904/Designing%2Byour%2Blife_OdysseyPlan.pdf

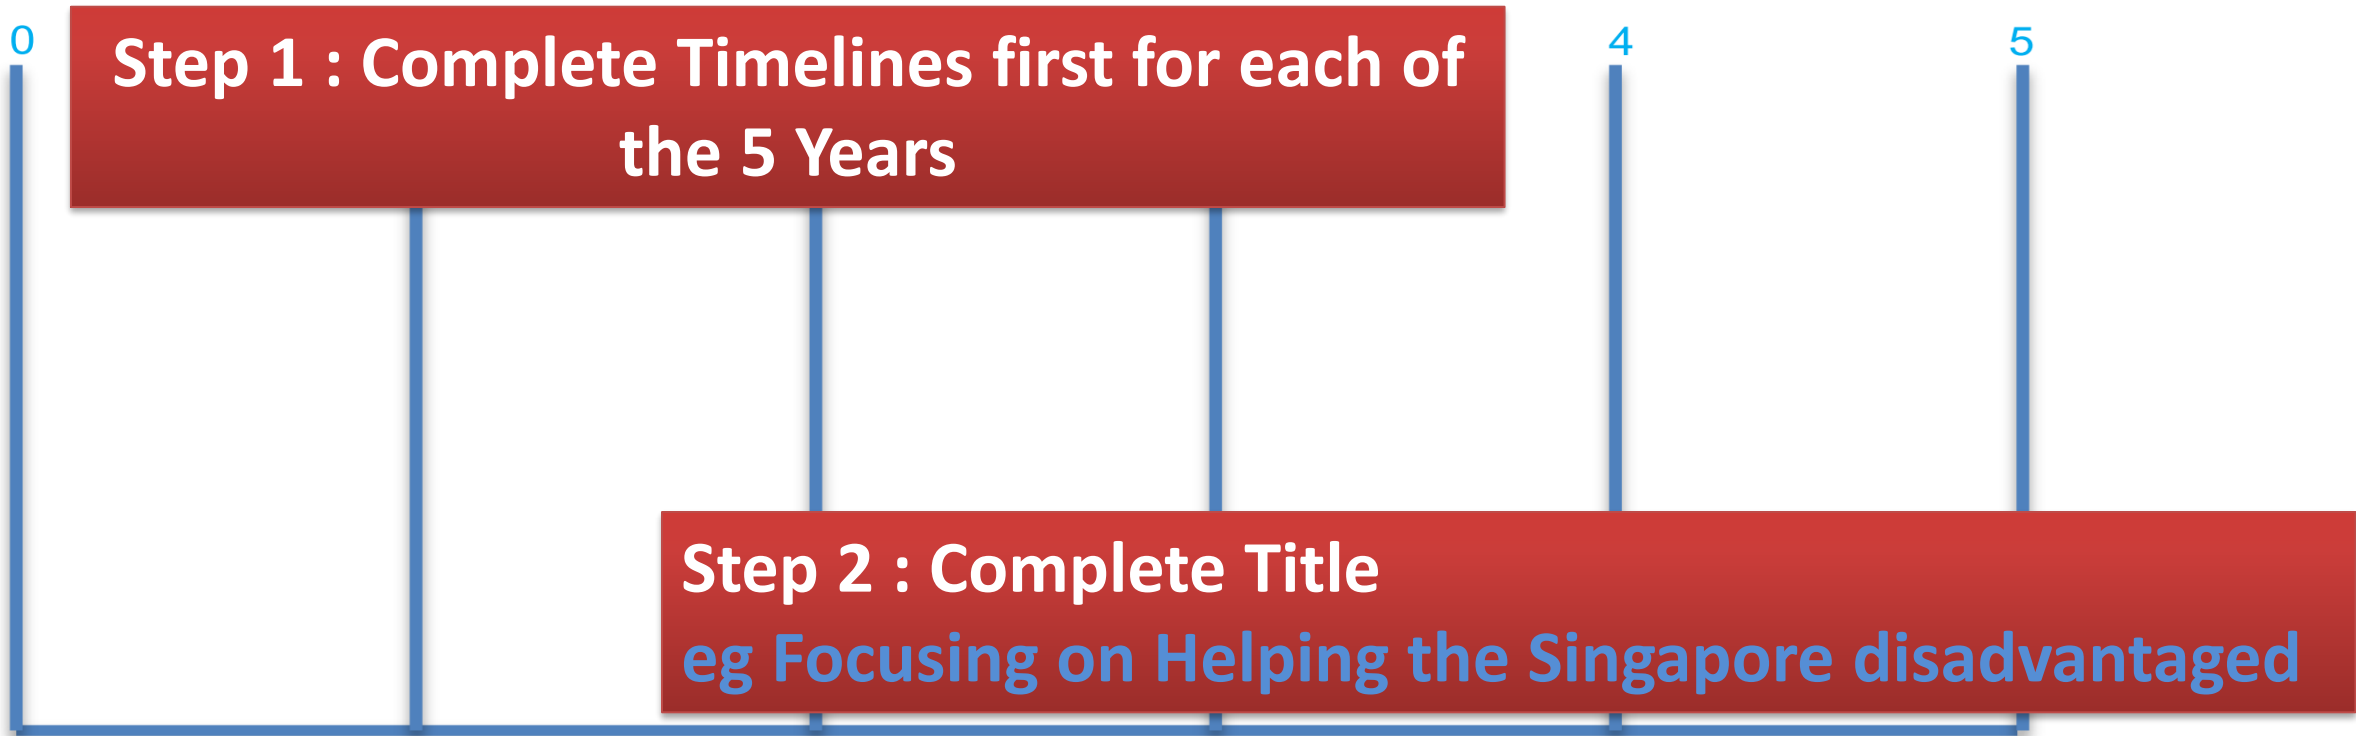

Consider -

- How coherent is each life with your Work and Life Views?
- How much you like each potential life?
- Available resources to make the ideas real? (time, money, skills, contacts)
- How confident are you about pulling this off?

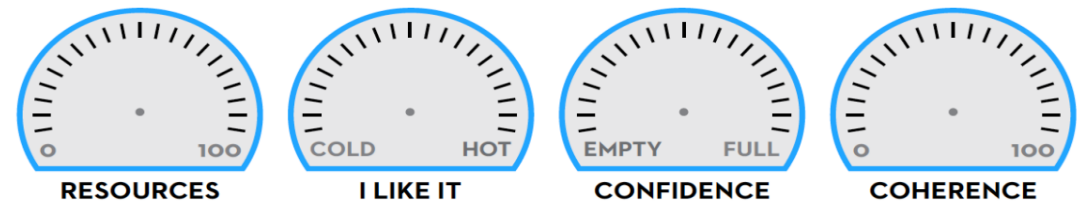

****Choose one of these potential 3 Lives to prototype in your Career Roadmap later.**

Summary of Tasks :

Alternative Path #__

6 word title:

Questions this path raises:

Step 3 : Complete the Dashboard

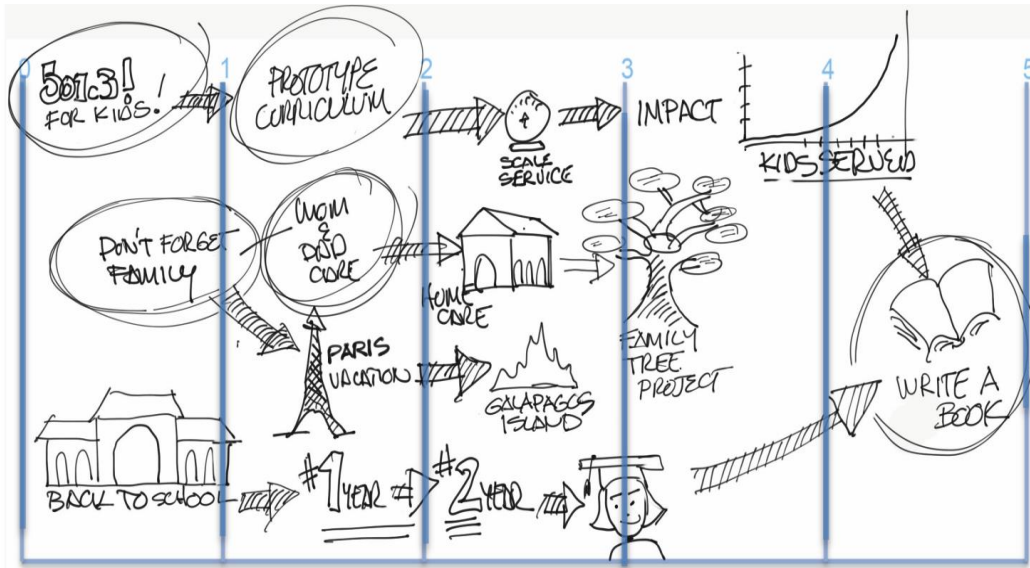

Step 4 : List some questions
Eg Who can I tap on in my cause?

Key Learning

These 3 Plans are mini prototypes of possibilities of your life

Test them and keep on refining them

Prototyping Conversation Importance of Informational Interview & Reflection

- Gain insights into your chosen career field in an informational interview with a mentor
- Reflect on your findings
- Evaluate the alignment between your initial career choice and future plans

Watch the pre-tutorial 3 video if you have not done so.

Prototyping Conversation Informational Interview – getting someone's story on

- How he/she got to do what he/she does
- How he/she got the expertise he/she has
- What it's really like to do what he/she does

Prototyping Conversation

Research and identify a mentor / professional with experience in your potential career field
(ideally have a minimum of 3 years experience)

NTU Connecting Minds

- Online **mentorship programme** connecting **NTU alums and other industry professionals** with current NTU students.
- Please register a "Mentee" account with your NTU email address at <https://ntu.jobkred.com/student>.

Other Mentorship Programmes / Professional Communities

- G Psych Stuff mentorship programme
(<https://www.sgpsychstuff.com/programmes/>)
- Mentoring SG centralised mentoring platform for youths
(<https://mentoring.sg/mentoring-programmes>)
- Research Gate social networking sites for scientists and researchers
(<https://www.researchgate.net/>)
- STEM ConnectHER community (for STEM female students)
(<https://www.tex.inc/taf/sch-student#Program-Activities>)
- Social Scientist mentorship community to direct STEM interests
(<https://www.thesocialscientist.org/>)
- The Institution of Engineers Singapore
(<https://www.ies.org.sg/Membership/Student-Member-Information>)
- The Mentorship Clinic by NTU Entrepreneurship Academy (NTUpreneur) set up to accelerate the entrepreneurial journeys of students
(<https://www.ntu.edu.sg/ntupreneur/news-events/mentorship-clinic>)
- Young NTUC's LIT (Learning Is Triggered) mentorship programme
(<https://www.lit.sg/career-mentorship>)

School Alumni / University Contacts

- <https://www.ntu.edu.sg/alumni/associations/school>
- **Cold Contact, Friends & Extended Family**
- **LinkedIn & Social Network** (www.meetup.com)

Register your
Mentee account

Important Note:

- Avoid interviewing your peers who are interns or post grad students and immediate family members
- No group interviews are allowed

Prototyping Conversations

Request the informational interview:

- Send an e-mail or LinkedIn message to potential mentor / industry professional.
- Introduce yourself and communicate interest in a career in the field of their expertise.
- Request to speak with them online via video or face-to-face.
- Once confirmed, schedule a convenient time to conduct the interview.
- You will need to record this interview (video). Seek their permission beforehand.

Prototyping Conversation (Not for a Job Interview!)

“Hello xx, I am so glad to connect with you. Xx said you are just the person to speak with.

I am very interested in xx and I would like to hear your story about xx.

Might you have 30 minutes to spare at a time and place convenient to you when I can buy you a cup of coffee and hear more about your experience?”

Bill Burnett & Dave Evans (2016) “Designing Your Life”

Prototyping Conversation Assignment

Conduct and Record the Interview

- With the mentor's permission, record the interview in video format using a suitable device. Ensure the audio quality is clear.

Mode	Time Allowed	File Format	Maximum file size allowed
Video	Maximum 10 minutes	MP4	500 MB

- Prepare an introduction of yourself (e.g. elevator pitch), why you are interested in this career and what you hope to achieve in this interview
- Ask your prepared questions and actively listen to the mentor's responses
- Ask relevant follow-up questions to gain deeper insights

Main Course Site - Individual Assessments folder (Downloadable Prototyping Conversations information sheet)

Prototyping Conversations Assignment

1. Fill up the **interviewee's details** in **Prototyping Conversation Assignment Form**
2. Type out the **critical 5 questions** used in the Informational Interview. Customise questions to show research on your interviewee and ask relevant questions to gain more insights into career

Part A: Informational Interview Details

Date of Informational Interview:	
Name of the interviewee (mentor/ professional) – Full name is required:	
The organisation employed at:	
Job Title:	
Mode of interview: (online, face-to-face)	
E-mail address: (preferably workplace e-mail)/ LinkedIn Profile address / Social Media link of interviewee)	

Key Informational Interview Questions (maximum 5):

- Question 1:
- Question 2:
- Question 3:
- Question 4:
- Question 5:

Prototyping Conversation Assignment

3. Submit a Reflection of 500 words ($\pm 10\%$):

- Provide clear rationale for your choice of your interviewee & discuss how the pathway undertaken by the interviewee relates to future career
- Discuss significant new insights, perspectives, challenges or opportunities identified from mentor's advice
- Critically analyse & evaluate your initial career choice based on new knowledge gained
- Determine whether your career choice aligns with your aspirations, values & long-term goals
- If necessary, explore alternative paths within or related to your chosen field.
- Discuss outcomes from the interview e.g. new career goal, etc.

Part B: Reflection (word count 500 words $\pm 10\%$)

(Word Count:)

Prototyping Conversation Rubrics in Section 5 the Course Guide

Prototyping Conversation – Rubrics for grading criteria:

- Weightage - 22%

Criteria	Poor (1)	Satisfactory (3)	Excellent (5)
1. Interviewee's Details (2%)	The informational Interview Form is incomplete. A number of interviewee details are omitted.	The majority of interviewee details required in the Informational Interview Form are provided.	Full details of interviewee required in the Informational Interview Form are provided.
2. Preparation & Research (4%)	Shows little to no preparation or research. Questions demonstrate a lack of understanding of the interviewee's background, career path, or industry. Knowledge of the interviewee's role and industry context is significantly lacking.	Shows good preparation and research skills. Conducted adequate research on the interviewee's background, career path, and industry and asked relevant questions. Display a reasonable understanding of the interviewee's role and industry context.	Demonstrates exceptional preparation and research skills. Thoroughly researched the interviewee's background, career path, and industry and asked highly relevant and insightful questions. Exhibit a deep understanding of the interviewee's role and industry context.
3. Depth of Reflection on understanding of the profession explored (11%)	Rationale for choosing interviewee is unclear. Fails to gather significant information during the interview. Unable to extract any meaningful insights, perspectives, or experiences from the interviewee. Analysis and synthesis of information are non-existent. Only a summary or description of the interview is provided. Understanding of the profession explored limited. No discussion of insights or new knowledge gained from the interview.	Clear rationale for choosing the interviewee is established. Gathers relevant information during the interview. Able to extract the interviewee's insights, perspectives, and experiences and attempt to analyse and interpret the information. Identified important details, although some analysis or synthesis may be lacking.	Clear rationale for choosing the interviewee is established. Effectively gathers valuable information during the interview. Able to extract key insights, perspectives, and experiences from the interviewee and critically analyse and interpret the information. Demonstrate a strong ability to identify and synthesise important details.
4. Level of originality (5%)	Lack of original thinking and personal insights. Most perspectives and ideas seem like generic or prefabricated content. Reflection is superficial and not thoughtfully written, with limited self-appraisal.	Demonstrates somewhat original thinking and personal insights. Some perspectives and ideas that seems like own thoughts or somewhat prefabricated content. Reflection is authentic and thoughtfully written with a moderate level of self-appraisal.	Demonstrates original thinking and personal insights. Unique perspectives and ideas that reflect own thoughts rather than generic or prefabricated content. Reflection is authentic and thoughtfully written with a high level of self-appraisal.

Declaration of Academic Integrity Form – Prototyping Conversation Assignment with Video Recording

The GAI policy included in the ML0004 Course Outline:

Leveraging on Generative Artificial Intelligence (GAI) Tools

NTU's position is that we should equip students with the knowledge and skills to use these AI technologies productively, ethically and critically and to help them sharpen their cognitive skills by synthesising ideas, performing in-depth analysis, and working creatively. Students are expected to continue practising high academic and professional honesty and integrity standards.

You may use GAI programs (e.g., ChatGPT) to help in your work, such as to generate ideas and to improve your writing. However, you should be aware that the materials generated by GAI programs may contain inaccuracies and be incomplete. Please be aware that the use of GAI may also stifle the development of your skills in writing as well as creative and critical thinking. Please note that contributions from GAI programs must be appropriately quoted and cited every time they are used. Failure to do so is considered a violation of academic integrity.

Please make a proper declaration in the “**Declaration of Academic Integrity**” if you employ any GAI programs to help in your work and submit the supporting document(s) as required.

DECLARATION OF ACADEMIC INTEGRITY

Please fill in the required information and sign to indicate that you have read and accepted the following statements. Your assignment will not be accepted without this declaration.

By listing my name and signing below, I confirm that:

1. I have read and understood the [University Code of Conduct](#), including the information on practices concerning [academic integrity](#). In the attached coursework submission, I have worked within its expectations.
2. I am aware that failure to act in accordance with the University Code of Conduct may lead to the imposition of penalties, which may include the requirement to revise and resubmit an assignment, receiving a lower grade, or receiving an F grade for the assignment, suspension from the University or termination of my candidature.
3. I consent to the University copying and distributing any or all of my work in any form and using third parties to verify whether my work contains plagiarised material and for quality assurance purposes.
4. I have uploaded the Prototyping Conversation assignment on the tutorial site.

To check the following where applicable:

- ☐ I confirm that the submitted work is substantively produced and completed by myself, and I did not use any Generative Artificial Intelligence (GAI) programs (e.g. ChatGPT, AdCreative etc.).
- ☐ I confirm that the submitted work is substantively produced and completed by myself. However, I have used GAI programs in the following manner to complete the work:
 - To generate ideas/insights, synthesise information, and other similar uses (I have included the prompts used in the GAI programs using a separate document)
 - To review, refine and/or suggest ways to improve my original work (I have submitted both my original writing and the revised writing by the GAI programs with time stamps, including the prompts used)
 - Others (I have elaborated on our use of GAI programs using a separate document)

Career Roadmap Rubrics

Main Course Site -
Individual Assessments
folder (Downloadable
Career Roadmap
information sheet)

Career Roadmap – Rubrics for grading criteria:

- Weightage - 15%

Criteria	Poor (1)	Satisfactory (3)	Excellent (5)
1. Clarity and Structure (2%)	The career plan is unclear and poorly structured, making it difficult to understand the individual's career goals and aspirations. It lacks a logical flow of ideas and actionable steps, and important details are missing or insufficiently addressed.	The career plan is clear and generally well-structured, with a logical flow of ideas. It provides a solid overview of the individual's career goals and aspirations, along with actionable steps, although some aspects may be less detailed or lack clarity.	The career plan is exceptionally clear, well-organised, and easy to follow. It demonstrates a logical flow of ideas and presents a comprehensive overview of the individual's career goals, aspirations, and actionable steps.
2. Alignment with Goals (3%)	The career plan does not effectively align with the individual's career goals, values, and interests. The proposed actions and steps are not clearly connected to these aspirations, and the plan lacks a cohesive direction.	The career plan shows a good alignment between the individual's career goals, values, and interests. It reasonably explains how the proposed actions and steps contribute to achieving these goals and fulfilling personal aspirations, although some connections may be less evident.	The career plan demonstrates a strong alignment between the individual's career goals, values, and interests. It clearly articulates how the proposed actions and steps will help achieve these goals and fulfil personal aspirations.
3. Realistic, Authentic and Achievable (6%)	The career plan is superficial, unrealistic, disregarding the individual's current skills, qualifications, or external factors. The proposed actions and steps are not feasible or lack a practical approach. The timeline for implementation is unrealistic or absent.	The career plan is mostly authentic, realistic, taking into account the individual's current skills, qualifications, and external factors. The proposed actions and steps are generally feasible, although some may require further development or adjustment. The timeline for implementation is reasonable and practical.	The career plan is highly authentic, realistic and demonstrates a clear understanding of the individual's current skills, qualifications, and external factors. The proposed actions and steps are feasible and well-suited to the individual's circumstances, with a practical timeline for implementation.
4. Personal and Professional Development (4%)	The career plan neglects the importance of self-development, lacking any mention of specific skills or knowledge.	The career plan acknowledges the importance of self-development and identifies relevant skills, knowledge, or experiences the individual aims to acquire or develop. It outlines strategies for self-improvement, although some aspects may be less detailed or less connected to career goals.	The career plan includes a robust self-development component, identifying specific skills, knowledge, or experiences the individual aims to acquire or develop. It demonstrates a thoughtful approach to continuous learning and growth, with clear strategies for self-improvement.

Declaration of Academic Integrity Form – Career Roadmap

The GAI policy included in the ML0004 Course Outline:

Leveraging on Generative Artificial Intelligence (GAI) Tools

NTU's position is that we should equip students with the knowledge and skills to use these AI technologies productively, ethically and critically and to help them sharpen their cognitive skills by synthesising ideas, performing in-depth analysis, and working creatively. Students are expected to continue practising high academic and professional honesty and integrity standards.

You may use GAI programs (e.g., ChatGPT) to help in your work, such as to generate ideas and to improve your writing. However, you should be aware that the materials generated by GAI programs may contain inaccuracies and be incomplete. Please be aware that the use of GAI may also stifle the development of your skills in writing as well as creative and critical thinking. Please note that contributions from GAI programs must be appropriately quoted and cited every time they are used. Failure to do so is considered a violation of academic integrity.

Please make a proper declaration in the “**Declaration of Academic Integrity**” if you employ any GAI programs to help in your work and submit the supporting document(s) as required.

DECLARATION OF ACADEMIC INTEGRITY

Please fill in the required information and sign to indicate that you have read and accepted the following statements. Your assignment will not be accepted without this declaration.

By listing my name and signing below, I confirm that:

1. I have read and understood the [University Code of Conduct](#), including the information on practices concerning [academic integrity](#). In the attached coursework submission, I have worked within its expectations.
2. I am aware that failure to act in accordance with the University Code of Conduct may lead to the imposition of penalties, which may include the requirement to revise and resubmit an assignment, receiving a lower grade, or receiving an F grade for the assignment, suspension from the University or termination of my candidature.
3. I consent to the University copying and distributing any or all of my work in any form and using third parties to verify whether my work contains plagiarised material and for quality assurance purposes.
4. I have uploaded the Career Roadmap assignment on the tutorial site.

To check the following where applicable:

- ☐ I confirm that the submitted work is substantively produced and completed by myself, and I did not use any Generative Artificial Intelligence (GAI) programs (e.g. ChatGPT, AdCreative etc.).
- ☐ I confirm that the submitted work is substantively produced and completed by myself. However, I have used GAI programs in the following manner to complete the work:
- To generate ideas/insights, synthesise information, and other similar uses (**I have included the prompts used in the GAI programs using a separate document**)
 - To review, refine and/or suggest ways to improve my original work (**I have submitted both my original writing and the revised writing by the GAI programs with time stamps, including the prompts used**)
 - Others (**I have elaborated on our use of GAI programs using a separate document**)

	c) Career Roadmap (15%) Planning pathway & strategies to reach career aspiration	c) Due Week 10 Thur 24 Oct 2359h

Using Design Thinking Principles in Designing Your Life

Adapted from Design Thinking process (Stanford Life Design Lab)

Meaning-Making

Work View

Life View

- Put your roadmap into practice in real-world scenarios.
- Regularly evaluate your progress and outcomes.
- Make necessary adjustments to refine your roadmap.
- If needed, revisit earlier steps to further tailor your path, ensuring alignment with your evolving goals.

1. Accept

- Where am I?
- Who am I? (WIT-GRIT-FIT)

S

2. Empathize

- What are my aspirations and needs?
- What energises and drains me?

S

3. Define

- What is my Work View & Life View?
- Frame & reframe problem

S

4. Ideate

- Brainstorm pathways
- What are possibilities?

O

5. Prototype

- Refine ideas
- Create career roadmap

D

6. Test Prototype & Evaluate

- What worked & what did not?

A

Work - Life Satisfaction

Goals / Aspirations

Self-Assess

Directions
Action

What have you learnt about:

- Generating ideas for different career paths
- How to create a prototype of your future career using a career roadmap & informational interviews?

Preparation for Next Tutorial Presentation

Present to your group your 3 plans briefly (2 mins)

- Share which is your preferred plan?
- How coherent is this preferred plan with your Work and Life Views?
- Why does it excite you ?
