

Assessments

- Lecture quizzes (**12%**) – 8 multiple-choice quizzes (**for due dates see following slide**)
 - Continuous assessment of concepts covered in the lectures – **1.5% per quiz**
- Lab implementations (**18%**) – 4 labs (**due dates are lab group specific, see lab manuals**)
 - Lab attendance is compulsory
 - Correct implementation and output generation for each experiment – **3% for Lab 1, 5% each for Labs 2, 3 and 4**
- Lab quiz 1 (**12.5%**) – **5th March 2025 (2:30PM-2:50PM)**
- Lab quiz 2 (**12.5%**) – **21st April 2025 (4:30PM-4:50PM)**
 - Quizzes on lab experiments, including relevant NachOS code (Labs 1&2 -Quiz 1, Labs 3&4 -Quiz 2).
- Concept Quiz (**15%**) – **24th April 2025 (9:30AM-10:00AM)**
- Algorithm Quiz (**30%**) – **24th April 2025 (10:10AM-11:10AM)**
 - Coverage – Topics in Lectures from Weeks 1-12 (and corresponding tutorials)
 - **Concept Quiz**: Multiple-choice questions focussing on concepts
 - **Algorithm Quiz**: Short answer questions focussing on problem solving and algorithms

Lecture Quizzes – Due Dates

- Quiz 1: OS intro., processes/threads – 28th Jan.
- Quiz 2: Process scheduling – 4th Feb.
- Quiz 3: Process synchronization – 18th Feb.
- Quiz 4: Deadlocks, Real-Time OS & Virtualization – 11th Mar.
- Quiz 5: Memory Organization – 25th Mar.
- Quiz 6: Virtual Memory – 1st Apr.
- Quiz 7: File Management – 8th Apr.
- Quiz 8: I/O Management – 15th Apr.

Assessment Structures

- Lecture Quizzes – Online, **3 retries allowed**, Highest recorded score
 - **Multiple choice questions** (MCQs) based on **lectures**
- Lab Implementations – Online submission (see lab manuals for details)
- Lab Quiz 1 – Online + Remote (requires Respondus Lockdown browser and Zoom)
 - **10 multiple choice questions** (MCQs) based on **lab experiments 1 & 2**.
- Lab Quiz 2 – Online + Remote (requires Respondus Lockdown browser and Zoom)
 - **10 multiple choice questions** (MCQs) based on **lab experiments 3 & 4**.
- Concept Quiz – Online + CCDS-labs (uses lab machine and Respondus Lockdown browser)
 - **15 multiple choice questions** (MCQs) based on **the lectures from Weeks 1-12** (and corresponding tutorials).
- Algorithm Quiz – Online + CCDS-labs (uses lab machine and Respondus Lockdown browser)
 - **6 short answer questions** based on **the lectures from Weeks 1-12** (and corresponding tutorials).

Makeup for Lab Sessions & Quizzes

- Lab Sessions & Quizzes (except for lecture quizzes)
 - **At most one makeup can be arranged for a valid medical reason supported with a Medical Certificate (MC) issued by a local doctor.**
 - If we don't receive an MC from you by the lab session or quiz date for which you are absent, you will receive ZERO mark for the corresponding lab implementation or quiz.
 - **Any exception to the above MC requirement must have prior email approval from the course coordinator, which will only be granted with strong justifications and under exceptional circumstances.**

Schedule (Lab, Concept & Algorithm Quizzes)

- Lab Quiz 1 (online + remote) – **5th March 2025 (2:30PM-2:50PM)**
 - Once you start the quiz, you will have **20 minutes** to complete it.
- Lab Quiz 2 (online + remote) – **21st April 2025 (4:30PM-4:50PM)**
 - Once you start the quiz, you will have **20 minutes** to complete it.
- Concept Quiz – **24th April 2025 (9:30AM-10:00AM)**
 - You must begin the quiz between **9:30AM-9:35AM**.
 - Once you start, you will have **30 minutes** to complete it.
- Algorithm Quiz – **24th April 2025 (10:10AM-11:10AM)**
 - You must begin the quiz between **10:10AM-10:15AM**.
 - Once you start, you will have **60 minutes** to complete it.

Software Environment (Lab Quizzes 1 & 2)

- These tests will be conducted **remotely**. You can access the tests at the stipulated time via the "Assignments" folder in the NTULearn course site.
- **For these tests, you may use one of the following two options:**
 1. A single device with both **Zoom and Respondus Lockdown Browser** working simultaneously. Please use the Mock-Test available in the "Assignments" folder in NTULearn to test the correct working of this feature before the actual quizzes.
 2. Two devices, **one with Respondus Lockdown Browser and another with Zoom**.
- **Steps for starting the tests:**
 1. Close all applications on your device(s).
 2. Start Zoom and login to your respective sessions based on your lab group. See subsequent slide for Zoom login instructions.
 3. Your lab TA will check that Zoom microphone & video is enabled and working properly for all the students. The TA will then provide a **Start Code** for starting the tests.
 4. Note down the **Start Code** on a piece of paper. **This step is very important.**
 5. **When asked to proceed by the TA**, open **Respondus Lockdown Browser** (either on the same device or on a different device depending on your option).
 6. Follow the online instructions, and when prompted enter the **Start Code** to begin the tests.

Test Environment (Lab Quizzes 1 & 2)

- All devices, except those on which Zoom and Respondus Lockdown Browser are running, must be **switched-off** and kept out of reach during these tests. **You are strictly NOT allowed to take any pictures of the test screen.**
- You are only allowed to put **one pen and one A4-sized blank paper** on the table for rough workings during the tests, besides the above devices. **Note, you will need to use this pen and paper to take down the Start Code for the tests.**
- You should strictly **have ONLY ONE browser tab open** with the active test in the Lockdown Browser, besides Zoom. All other applications must be closed in all the devices used for the tests. Any violation of this condition, if detected, will result in immediate termination of the tests.
- **Zoom requirements:**
 - **You must be authenticated in Zoom with your NTU email id to be able to connect to the quiz meetings**
 - Ensure that Zoom microphone and video is working for the entire duration of the tests.
 - Change your display name to your official name (if not so already).
 - Find a location that is well lit and has a stable internet connection.
 - Position the Zoom camera to landscape view and ensure that: 1) Your head, upper torso and arms are visible, 2) You are alone in the work area, and 3) The work area is clean and uncluttered
- **If you face any technical issues during the test, try to open the test again from NTULearn. If you need to close and re-open Lockdown Browser, please provide justification when prompted. If you face an issue that cannot be resolved, then you can contact your TA via the Zoom chat window.**
- **Avoid speaking during the quiz so as not to disturb the other students. You may want to set the speaker volume of your device to 0 to avoid getting disturbed. Microphone in Zoom must still be enabled.**

Zoom login instructions for Lab Quizzes 1 & 2

Lab Group	Lab Quizzes	TA
SCE1, SCE2, REP2, SCMB	Meeting ID: 919 691 6877 Passcode: 896135	FANG WANLONG WANLONG001@e.ntu.edu.sg
CSPT2, SCEX, SCEC, SCMA	Meeting ID: 939 970 3088 Passcode: 554754	Eduardo de Conto Fernandes EDUARDO002@e.ntu.edu.sg
SCE3, SCEA, SCEB, SCEZ	Meeting ID: 822 604 0192 Passcode: 123456	ZHANG BO BO003@e.ntu.edu.sg

Test Environment (Concept & Algorithm Quizzes)

- These tests will be conducted in **CCDS labs**. Next slide contains venue details and seating arrangements.
- These tests will be conducted using lab machines. You can access the tests at the stipulated time via the "Assignments" folder in the NTULearn course site and **with Respondus Lockdown Browser**.
- All devices, except the allocated lab machine on which you are taking the tests, must be **switched-off** and kept out of reach during these tests.
- You can take your bag to the allocated lab, but you are only allowed to put **one pen and one A4-sized blank paper** on the table for rough workings during the tests. Paper will be provided in the lab. You must **leave the rough paper behind** on the table when you exit the lab after the test.
- You should strictly **have ONLY ONE browser tab open** with the active test. No other browser tabs or browser instances must be open, and if detected it will result in immediate termination of the test.

Venues & Seating Arrangements for Concept & Algorithm Quizzes

- Quiz will be conducted at the following labs:

HWLAB1 (N4-01a-03)

HWLAB3 (N4-b1a-05)

SWLAB3 (N4-b1c-14)

SPL (N4-b1b-11)

- Please see document “Lab Allocations” in NTULearn “Assessments” folder for details.
- You are required to **arrive** at your allocated lab **early (before 9:25AM)** so that **you can take your seat and be ready for the quizzes sharply by 9:30AM**.
- You are **allocated a computer** in the lab to do the quizzes **according to your serial number** in your lab group list. Please mark your attendance and go to the computer indicated in the sheet provided at the lab entrance.
